

## **I KNOW YOU'RE IN THERE (Jessi Markee)**

### **Verse 1**

Sometimes at night, I look back on life  
Wonder where we both went wrong  
You used to be relaxed, used to make  
me laugh  
Now you sing a sad song

### **Verse 2**

The pressure you left, to be someone  
else wasn't where I wanted you to be  
So I tried to make it right, give you all  
the time  
But this hasn't made you happy

### **Chorus**

I know you're in there  
Man that I met  
I know you do care  
After all that you've said  
I know you're in there  
Man that I love  
Some days I see you but it's not enough

### **Verse 3**

Sometimes I wish, that you wouldn't  
miss  
All of my little clues  
To pull you out the dark, and set you  
apart  
But there's no helping you

### **Verse 2**

The pressure you left, to be someone  
else wasn't where I wanted you to be  
So I tried to make it right, give you all  
the time  
But this hasn't made you happy

### **Chorus**

I know you're in there  
Man that I met  
I know you do care  
After all that you've said  
I know you're in there  
Man that I love  
Some days I see you but it's not enough

### **Bridge**

But I know if you look into my eyes  
You will see you'll find all of our ties  
You have heard, it's true that I'll get  
through  
I'll get through to you

### **Chorus**

I know you're in there  
Man that I met  
I know you do care  
After all that you've said  
I know you're in there  
Man that I love  
Some days I see you but it's not enough
