

I Should've Never Have Left You (Jessi Markee)

Verse 1

Battered and bruised you,
I've hurt and used you,
Made you look foolish
I've made you look stupid.
Taken advantage and everyone knows it
Cos I've been fooling around
Until you found out.

Pre-Chorus

But you even love when I...
Yes you, love even when I f**k up.

Chorus

I should've never have left you
I should've stayed by your side
I could've held onto your pride
I should've been your bride.

Verse 2

I screamed and I've shouted
I've made you look childish
Treated you badly
Can't see what you see in me.

Pre-Chorus

But you, even love when I...
Yes you, love even when I f**k up.

Chorus

I should've never have left you
I should've stayed by your side
I could've held onto your pride
I should've been your bride.
(repeat)

Bridge

Cos when somebody smiles at me,
I find it compulsory.
To give away all of myself
Cos I'd rather be someone else
(repeat)

Chorus

I should've never have left you
I should've stayed by your side
I could've held onto your pride
I should've been your bride.
(repeat x 2)
